

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : David B. AGUS
Application No. : 10/625,152
Filed : July 23, 2003
For : Use of Benzothiopenes to Treat and Prevent Prostate Cancer
Examiner : James D. ANDERSON
Art Unit : 1614
Docket No. : 67789-19

LETTER

Dear Sir:

Applicant requests that the Information Disclosure Statement (PTO/SB/08a Form) and the copy of PCT Publication No. WO01/09116 be forwarded to the Examiner and be considered.

The Information Disclosure Statement and the copy of PCT Publication No. WO01/09116 were previously submitted with the U.S. Patent Office's Electric Filing System (EFS) on August 31, 2007. However, it appears that a technical problem with the previously submitted PTO/SB/08a Form occurred. In viewing the previously submitted PTO/SB/08a Form through the U.S. Patent Office's Private Application Information Retrieval (PAIR) System, Applicant found that the Form did not include any of the information that Applicant originally included.

//...p. 2.

Accordingly, Applicant herewith re-submits a replacement PTO/SB/08a Form along with a copy of PCT Publication No. WO01/09116 and respectfully requests that the Information Disclosure Statement is considered.

Respectfully submitted,
David B. AGUS
